Tessellation	Square tile repeat
<p>Tessellation is when we cover a surface with a pattern of flat shapes so that there are no overlaps or gaps.</p> 	<p>A square tile repeat, means that the artwork in the square can be repeated seamlessly in any direction.</p> <p>This is often used for textiles, tiles and wallpapers.</p> 

I know that working with pattern can be a mindful activity.

I know that we can use line, shape and colour, cutting and collage to help us create pattern.

I can explore the work of a surface pattern designer and make my own repeating pattern, thinking carefully about composition.
